Orville Nix is not the typical JFK assassination book. This book does not attempt to answer the question of who killed John F. Kennedy; instead, it addresses why we should question the actions of those involved and why the truth was withheld from the people. Though copies of Orville Nix's film exist, the original film is missing. Why the FBI confiscated Orville's camera for several months then returned it in pieces—were these actions sinister, or were they just examples of governmental incompetence? Orville Nix exposes information about the House Select Committee staff's involvement in the missing film. Author Gayle Nix Jackson's interviews with people who were close to Orville, and the film, will shed light on the government's involvement with the filmmaker. Gayle Nix Jackson is the granddaughter of Orville Nix, as his eldest granddaughter. Nix Jackson shares experiences growing up with her beloved grandfather and on how his views changed after that fatal day. Hearing his story precipitated the quest. Jackson is still on to find the film. Her grandfather was there that day for a reason, and if the original Nix film could be located, modern-day technology could determine if there was indeed another person behind the stockade fence, or not. Questions still abound today as to whether or not the film was altered. Finding the original Nix film would answer one of the most enduring questions related to this horrific event: Was there a conspiracy to kill John F. Kennedy on November 22, 1963? Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history, books about World War II, the Third Reich, Hitler, and his henchmen, the JFK assassination conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the Old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

The European Neighbourhood Policy (ENP) was initially intended to create a ring of friends surrounding the Union, from Morocco to Russia and the Black Sea. Prodi (2002) today, however, the ever-worsening security situation in the region clearly shows that the aim has not been achieved. With wars in Ukraine, Syria, and Libya, the Union's neighbourhood can therefore better be described as a ring of fire. Does this mean that the policy has failed and that an alternative policy towards the EU's neighbours is needed, or should these

developments be seen as temporary setbacks caused by external factors beyond eu control by comparing the eu s approach to its eastern and southern neighbours this volume seeks to answer such overarching questions the authors find that the eu still has a potential role to play in providing regional security but that this role also risks being increasingly undermined if it does not increasingly take into account the broader geostrategic realities in both regions

fact finding is at the heart of human rights advocacy and is often at the center of international controversies about alleged government abuses in recent years human rights fact finding has greatly proliferated and become more sophisticated and complex while also being subjected to stronger scrutiny from governments nevertheless despite the prominence of fact finding it remains strikingly under studied and under theorized too little has been done to bring forth the assumptions methodologies and techniques of this rapidly developing field or to open human rights fact finding to critical and constructive scrutiny the transformation of human rights fact finding offers a multidisciplinary approach to the study of fact finding with rigorous and critical analysis of the field of practice while providing a range of accounts of what actually happens it deepens the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the field the contributions to this book are the result of a major international conference organized by new york university law school s center for human rights and global justice engaging the expertise and experience of the editors and contributing authors it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law international relations and critical theory this book addresses the major areas of human rights fact finding such as victim and witness issues fact finding for advocacy enforcement and litigation the role of interdisciplinary expertise and methodologies crowd sourcing social media and big data and international guidelines for fact finding

a comprehensive history of one of the major players in the world of international finance over the course of its 150 year history deutsche bank has established itself as a major player in the world of international finance but has also been confronted by numerous challenges that have changed the face of europe from two world wars to the rise and subsequent fall of communism in this major work on the bank s history werner plumpe alexander nützenadel and catherine r schenk deliver a vibrant account of the measures

the bank undertook in order to address the profound upheavals of the period as well as the diverse and unusual demands it had to face these included the first world war which brought the world's first period of globalization to a sudden and dramatic end but also the development of the predominantly national framework within which the bank had to operate from 1914 until the fall of the Berlin Wall in 1989 more recently the focus has shifted back to European and global activities with Deutsche Bank forging new paths into the Anglo-American capital markets business so opening another extraordinary chapter for the bank

modern presidents are ceos with broad powers over the federal government the united states constitution lays out three hypothetically equal branches of government the executive the legislative and the judicial but over the years the president as head of the executive branch has emerged as the usually dominant political and administrative force at the federal level in fact daniel gitterman tells us the president is effectively the ceo of an enormous federal bureaucracy using the unique legal authority delegated by thousands of laws the ability to issue executive orders and the capacity to shape how federal agencies write and enforce rules the president calls the shots as to how the government is run on a daily basis modern presidents have for example used the power of the purchaser to require federal contractors to pay a minimum wage and to prohibit contracting with companies and contractors that knowingly employ unauthorized alien workers presidents and their staffs use specific tools including executive orders and memoranda to agency heads as instruments of control and influence over the government and the private sector for more than a century they have used these tools without violating the separation of powers calling the shots demonstrates how each of these executive powers is a powerful weapon of coercion and redistribution in the president s political and policymaking arsenal
